THE CAMPAIGN IN EGYPT.

AID FOR ARABI FROM TRIPOLI. THE EGYPTIAN LINES SHELLED BY THE MINOTAUR -PEAD AND WOUNDED STRIPPED BY BEDOUINS -SIR GARNET WOLSELEY PREPARING FOR

ANOTHER FIGHT. The London cable letter to THE TRIBUNE points out that the transport service is the point of the army in Egypt. General Wolseley is still criticised in Europe on details of his campaign. It is said that 30,000 horsemen from the interior of Tripoli are on their way to join Arabi. The man-of-war Minotaur shelled the Egyptian lines near Ramleh. Sir Garnet Wolseley is said to be preparing for another attack to-day or to-morrow, and that in the coming fight he will endeavor to bring the hostilities to a close.

Military opinion regards this as a ludicrous eversight. General Welseley is evidently now gathering himself together for a forward move next week, when he will have 15,000 soldiers and thirty guns at the

The Turkish Convention farce is nearly played out, but the instrument is still unsigned. If Octoman troops are sent they will be landed at Aboukir to test the loyalty of the cooperation. Even if England assents to their landing at Alexandria, they will still march to Aboukir. Their operations will be restricted to that point unless General Wolseley experiences unexpected difficulties.

AID FOR ARABI FROM TRIPOLL. London, Sept. 2.—A dispatch to Reuter's Tele-gram Company from Constantinople says the Porte has been informed that 30,000 horsemen from the Interior of Tripoli are proceeding to Egypt, and has ordered the Turkish authorities to intercept the men on their passage.

THE NEWS FROM THE FRONT.

LONDON, Sept. 2 .- A dispatch to The Times from Kassasin says: "A wounded Arab officer states that hardly had the British cavalry swept through the Arab ranks in the fight here recently when a horde of Bedouins poured in and began to strip and rob the dead and wounded of both sides, killing the wounded who were able to resist. Colonel Tulloch is trying to win the confidence of the peasants, one of whom has brought in over one hundred sheep and sold them to the army. Many of the prisoners are simple farmers. Several of them have been released and invited to come in with vegetables and establish a regular market."

A dispatch to The Daily News from Ismailfa states that engineers have conquered the difficulty of tainted water by digging holes in the sand by the side of the canal. The water when filtered through the sand is fairly clear. The camp at Mahsomeh has been raised because of bad odors, and another camp has been formed two miles further on.

An Egyptian engineer officer, who was found wounded after lying forty-eight hours on the Eassasin battle-field, stated that Arabi Pacha informed the men who participated in that fight that there were only two weak British regiments at the front and that there was plenty of time to drive the Christians into the sea. The officer thinks that Arabi's army is entirely demoralized. He says the Egyptian generals invariably place the irregulars them if they show cowardice. This statement is confirmed by what has been seen and by the fact that almost all the prisoners in the hands of the Brit-

KASSASIN, Sept. 2,-Afternoon,-The British troops remain in the position in which they were at last report. Arabi Pasha's outposts are two miles distant. The British armored train is now completely fitted up and is ready for action. ISMAILIA, Sept. 2 .- The Highland Brigade has ar-

rived here from Alexandria. Most of the cases of Buristroke among the troops here are slight. ALEXANDRIA. Sept. 2.—It is believed that Gen-eral Welseley will attack the enemy on Sunday, or Monday, with a view to overwhelming the rebel-lion at one stroke.

THE ESYPTIAN LINES SHELLED.

ALEXANDRIA, Sept. 2.—The man-of-war Minotaur shelled the enemy's lines between Ramleh and a force of infantry and cavairy, which had been drawn out by a reconnoissance of British mounted infantry. A strong blockhouse has been erected at Gabarri. Aboukir early this morning. The shelling was against

NOTES OF THE WAR.

ALEXANDRIA, Sept. 2 .- Five of the Mustaphezeen have been arrested for having plunder in their possession. The Khedive shortly intends to reorganize the police and suppress the Mustaphezeen. It is stated that Mahmond Fehmy has promised to

furnish the Khedive with a written report of the position and force of the enemy.

LONDON, Sept. 3.-A number of vet-erinary surgeons have been sent to Italy, Spain, Smyrna and New-York to inspect mules purchased for use in Egypt.

PORT SAID, Sept. 2 -The troop-ships Orontes and Malabar and the steamer Osmalia, the latter with mules and forage, have entered the canal. The health of the troops and sailors is excellent.

of Orangemen may be accepted as special constables, but, of course, in the capacity of citizens, not A meeting of policemen, at which all the dis-

missed men and those who resigned were present, was held this evening. Canon Pope spoke, urged the police to submit to the authorities, and advised those who had resigned to return to their duty and petition for the rein-statement of the dismissed men. The men unanimously refused this advice. They said they were willing to return to duty the moment the dismissed men were rejustated and assidered. If any disturbances occurred, the respon-

sibility would be with the Police Commissioners. Serious disturbances occurred to-night in Stephens-st. A number of special constables who had a drunken man in charge were attacked and one of them was badly maltreated.

Fifteen mounted policemen have resigned and the rest of them have refused to do duty. Cavalry and infantry are under arms at the Castle.

Later .- The strike now seems to be on the eve of settlement. The men who resigned sent a memorial to the Castle this evening expressing deep regret at their action and respectfully asking Lord Spencer to consider their case. Lord Spencer replied that if they returned to duty this evening their case would receive the fullest consideration. A number of the men returned to their posts, and a large proportion of the night reliefs are now on duty. This result has unquestionably saved the city from scenes of rooting, as many of the special constables who have come forward have been utterly unable to cope with the disorder.

Early this evening the Lord Mayor issued a second proclamation, thanking the citizens for their peaceful and orderly conduct, and stating that he had unabaken confidence in their patriotism and self-respect. rial to the Castle this evening expressing

self-respect.

Altogether 700 special constables were sworn in during the day, but the resumption of duty by the regular police has obvinted the necessity for their

priorment.
Midnight.—The city is in a most excited state.

Midwight.—The city is in a most excited state. The military to-night charged a mob surrounding the O'Connell statue and cleared the spot. A posse of police on duty in Sackville-st, are making frequent charges in order to clear side streets. There is much stone-throwing. Several persons have been moded, and a number of arrests have been made. Both military and police are much hooted, but show great forbearance.

It is stated that the police have expressed their determination to again throw off their uniforms on Monday if the dismissed men are not reinstated.

Lord Spercer addressed the special constables who were paraded in the Castle yard to-day. In his remarks he said that he deeply regretted what had occurred. Unfortunately the men had adopted a course which he must call insubordination and disobedience of the most marked kind. He believed they were led away by designing men, some in the they were led away by designing men, some in the force and some outside. It would be impossible for any Government to treat such acts otherwise than he had done.

A COLORED APPLICANT REJECTED.

RESULT OF THE EXAMINATIONS FOR ADMISSION TO THE MILITARY ACADEMY.

WEST POINT, N. Y., Sept. 2.-The examinations of applicants for admission to the Military Academy were concluded to-day. Out of forty-one applicants only fifteen have been rejected. There is one ap plicant sick in the hospital who has not yet been ex amined. Two alternates passed the examination, but is the colored applicant, Lemuel W. Livingston, appointed from Fiorida. Cpon being quantum Horizontal what particular portion of his examination Livingston was deficient in, Adjutant Hoyle stated that under the was deficient in, Adjutant Hoyle stated by made pubwas uchicient in Adjutant Hoyle stated that under the rules an answer to that question could not be made public. He sold that Livingston was simply found deficient and not dury qualified for admission, and that he was directed to settle his accounts with the treasurer and depart. Livingston appeared at the Adjutants office at 1 o'clock this afternoon, drew the money he deposited when he first came here, paid his board and started on an afternoon train for New-York. One of the applicants rejected was an appointee of the Adjutant-General of the Army.

COUNTERFEIT TICKETS SOLD.

KANSAS CITY, Mo., Sept. 2.-L. D. Ross, the ticket-scalper arrested last night for counterfeiting tickets, was released on ball, but was again arrested on additional evidence, and is now held in \$2,500 bonds. It is asserted that a large number of tickets have been fraudulently issued and used, and that the tickets were printed in Illinois, probably near Quincy. They were ville and the Lake Eric and Western, to be used ville and the Lake Eric and Western, to be used over the St. Joseph and Santa Fe, Missouri Pacific and Union Pacific Rathroads. Letters have been found in Peorin or Quincy implicating Ross, but it is not known to what extent he was assisted. The tickets were sold to certain points to persons going only to intermediate points, and rebates were given by the cor spiring scalpers at these intermediate points. The tickets were then destroyed, and thus never reached the auditing office.

The true inwardness of the Ross ticket fraud is disclosed by J. D. Cruize, general agent of the Santa Fe road, who returned to-day from Haunibal, bringing 900 bogus tickets, representing an average of \$25 cach. The tickets were printed by W. H. Folsom, a printer at Quincy, fil., employed by Ross. The printing began over three months ago, while Ross was located at Hamilbal. Two months ago he removed to this city. Last Wednesday S. K. Hooper, general passenger agent of the St. Joseph road, receiving an inking of the affair, visited folsom and adroitly worked all the secret from him, and secured 900 of the tickets which had been printed in compliance with the recent order of Ross, together with the letters of the latter. Folsom protests his innocence of any knowledge of fraud in the iransaction. The tickets are issued in the names of the Peoria, Decatur and Evansville and the Lake Eric and Western roads, and read between the following points: Kansas City to Cheyenne, Kansas City to Santa Fe, St. Louis to St. Joseph, Chicago to Minneapolis, and Peoria to St. Joseph, Chicago to Minneapolis, and Peoria have a genuine look and are calculated to foot the oldest conductor. over the St. Joseph and Santa Fe, Missouri Pacific and

was settled at Durmanivine and night and the contract will be signed to-day. The manufacturers concede the Pittsburg list, with a reduction of 10 per cent on single thick glass, and the workmen accept the usages on car-rying their own rolls. Work in the factories of the State will begin at once.

A PROPOSED DUEL BETWEEN EDITORS.

RICHMOND, Va., Sept. 2 .- C. O. B. Cowardin, Editor of The Dispatch, was arrested here this morning charged with being about to engage in a duel with W. C. Elam, Editor of The Richmond Whig. Mr. Cowardin was put under a bond of \$1,000 to appear before the Police Court on Monday. A warrant is also out for the arrest of Mr. Elam. The anticipated trouble grew out or editorials.

GOUNOD'S "REDEMPTION."

The Birmingham musical festival was a great success. Three new cantatas were produced, inleading a production by Sir Julius Benedict, "Graziella." The words to this cantata werewritten by Henry Hersee. They are stilted twaddle and do not assist the composition, which musically is rather weak. The great work of the festival was Gounod's oratorio, "The Redemption," for the copyright of which Novello gave £4,000. There has been no such event since the production of Menmay justly be called the composer's sacred master piece. Beginning with the fall of man, it ends with the miraculous diffusion of the Gospel, taking in the Passover and the Ascension. The piece naturally exhibits traces of musle more suitable to light opera. For instance, the joy is the joy of lovers rather than a joy of the divine kind. The march to Calvary is a grand composition, but the critics question its style on religious and sesthetic grounds. The simple. graceful chorus accompanying the march is worthy of Mozart. Washington, Sept. 2.—General Order No. 54 from the Headquarters of the Army, carrying into effect the sentence of the court martial upon Major Taylor, A. A. General, is made public. After reciting the charges, specifications and findings of the Court the order concludes as follows:

It is made the unpleasant duty of the General of the Army to administer to Major Joseph H. Taylor, Assistant Adjutant-General, a reprimand, the only punishment awarded in his case. The General has read carefully the record of the proceedings of the general court martisl and observed that Major Taylor, while admitting the communication to the Adjutant-General which has been adjudged prejudicial to good order and military discipline, claims that it referred to a notice that an order to transfer him to Omaha was contemplated, rather than to the order itself after it had been made; that he at once began his preparations for a change of station, and that instead of appealing to Senators to ald him to obtain a change of orders, he had simply yielded to the suggestion of friends to allow them to make such an effort in his behalf. The letter of Major Taylor of July 31, 1882, set forth in full in the specification to the first charge, is so direct and so plant that it needs no interpretation. It is official, dated at Newport Bornecks, Kentucky, his post of duty, and signed with his official signature, states in direct terms that he had received from his chief, the Adjutant-General, his telegram notifying him of the Issuance of orders carrying him at the end of the succeeding month to Omaha, contains no intimation of a prompt and ready obedience, but, quite the contrary, he sets forth the full reasons which had induced him "to ask political assistance from the Senators of his State, Kentucky, in the revocation of the order."

Major Taylor has been no commissioned officer of the Army for twenty-six years, twenty of which in the Adjutant-General's Department of the plante, and yet he construes this as an indigitity. In the Army the rule has bee

ACCIDENTS TO RAILROAD TRAINS.

PITTSBUEG, Sept. 2. - A coal train on the Pittsburg and Southern Railroad run into a passenger train a few miles from this city at 8:30 o'clock this morning, demolishing the coal train and a baggage car and passenger coach of the other train. A number of passengers were slightly injured.

BURLINGTON, VI., Sept. 2.-A freight train this morn ing plunged through an open draw-bridge in this city, the engineer not understanding the eignals. The engineer jumped in time to save his life. The rails were torn up, and trains were delayed several hours.

Harroup, Conn., Sept. 2.—The passengers by the

midday express on the New-York, New-Haven and Hartford Railroad train from New-York, reaching Boston about 6 o'clock yesterday, had a narrow escape from a terrible accident. The train was running past Berlin, Conn., about 2 o'clock, at the rate of forty miles an bour, when the connecting bar of the engine on the left side gave way, which was followed by the breaking of the gave way, which was followed by the breaking of the connecting bar on the opposite side. Both bars plunged into the sand. That the engine was not derailed is remarkable. The rods in flying upward struck the engineer's cab, but neither he nor the fireman was hurt. The engineer applied the air brakes. These stopped the train within the space of 500 feet. The passengers received no shock and knew nothing of their peril. The train was brought to a standstill near a siding on which stood a freight-train. The disabled engine was hadled off, and the freight engine attached to the train, which was delayed only twenty minutes.

A LARGE RAILWAY PURCHASE

BUYING HANNIBAL AND ST. JOSEPH. THE CONTROL OF THE ROAD SECURED BY A SYNDE CATE COMPOSED OF JAY GOULD, RUSSELL SAGE, SIDNEY DILLON AND OTHERS.

The control of the Hannibal and St. Joseph Rail-

road Company was bought yesterday by a number of men who have long been identified with the management of the Union Pacific the Wabash railroad systems. Among them are Jay Gould, Russell Sage, Sidney Dillon, Frederick L. Ames and Washington E. Connor, Mr. Gould's principal broker. The absence of Mr. Gould from the city vesterday did not prevent the completion of the sale, which had been under consideration for several days. These persons bought at 42 practically the whole of the common stock of the company, which amounted, according to the last annual report, to 91,687 shares. They bought about 90,000 shares. As the preferred stock is only \$5,083,024, they secured at once the absolute control of the company. The negotiations leading to the sale were conducted by a prominent Stock Exchange firm which was involved, to some extent, in the Hutchinson scandal a few months ago. It was said yesterday that the head of the firm brought the negotiations to a sudden close by threatening to sell on Monday the large amount of stock which the firm had been carrying. Some of the other brokerage houses had expressed an unwillingness to sell at the offered price, but when he said that he would offer on Monday all the stock which he held, the others acquiesced in the sale readily. It is un derstood that the house was carrying about 18,000 shares of the stock. The sale was made by brokers who have been

holding the stock for the last year for the account a "corner" in Hannibal and St. Joseph commo stock was developed, greatly to the surprise of Wall Street. The price of the stock jumped in one day from 96½ to 131, and on the next day to 200. Afterward it was held at 300 until the settlements had been effected. Since that time the stock has been slow of sale, although the price has been maintained steadily between 80 and 90. The head of the pool which created the "corner" was found to be John R. Duff, of Boston. A young man, he was comparatively unknown before the culmination of this operation. He had inherited from his father, who died a few years ago, a large fortune, estimated at \$5,000,000 or \$6,000,000. This fortune had been accumulated by the claer Duff in railroad construction, and it is said to be largely owing to him that the Hannibal and St. Joseph road was built. The "corner" attracted public attention because it was the first successful attempt of the kind since the famous Northwest "corner" nine years before. Among the sufferers were James R. Keene, who promptly settled his short contracts at about 180, and Amos L. Hopkins, vice-president of the Wabash Railroad, who carried the case to the courts. It was understood at the time that Mr. Hopkins's sales had been made through Mr. Gould's broker, W. E. Connor. A private settlement was made afterward and the suit was dropped. It was reported that Russell Sage was caught short of the stock, but this Mr. Sage denied. Several broker tims were involved to small amounts, but the settlements they made were never made public.

In engineering this "corner" Mr. Duff accumufrom 9612 to 131, and on the next day to 200. After

amounts, but the settlements they made were never made public.

In engineering this "corner" Mr. Duff accumulated nearly the whole of the common stock and this was carried for him, it appears, by some of the most prominent Wall Street houses. Those who are said to have consented to the saie yesterday are John Bloodgood & Co., Work, Strong & Co., W. T. Hatch & Sons, and Stout & Co., of New-York, and J. T. Bates & Co., of Boston. The assent of Hatch & Sons is not certain, because the senior member of the firm is on his way home from Europe and the next partner was out of town.

Russell Suge rubbed his hands gleefully and remarked: "Yes, yes, Duff tried to corner us last year. Well, I don't know anything about Mr. Duff's affairs. You see he operated altogether through his brokers. We bought the stock of them."

John Bloodgood said that he had nothing whatever to say.

It was understood yesterday that a change of management would be made next week. The present directors, who were elected in November of last year, are Myron P. Bush, Buffalo; H. H. Cook, William Dowd, Horace Porter, Elihu Root, John K. Duff, John Bloodgood, A. C. Gorham and William J. Hatchinson. Mr. Dowd is president and Mr. Duff vice-president.

There have been no sales of the common stock at the Stock Exchange recently. The quotations have been maintained at 85 bid and 90 asked. Before it was generally known in Wall Street yesterday that the company had changed ownership the stock was quoted 43 bid. The drop from previous quotations was so great that most of the watchers of the tape thought the quotation an error.
